

K-LOVE is a wonderful radio service in my community. I have it on my radio everytime I crawl into my car. It is a very uplifting program to listening to as I prepare myself to go to work. I am a 4th grade school teacher, and when I get off work after a crazy day with 20 9 year olds all day, K-LOVE is a great source of relief and renewal of my spirit. I know of many people that I didn't know were Christians, that when I get into their vehical I hear K-LOVE playing. I know it can, and has touched many lives in my community, and it would be a shame if it was replaced by an LPFM broadcaster. I know a lot of people would be very disappointed to not have it anymore. People in my community need to have positive programming on the radio to listen to. with all of the junk these days that our young kids are listening to, they need a positive alternative that can reach so many people, and lead them in the Right direction. Please do not take K-LOVE off the air!!!!
